PROFILE SUMMARY

Frontend Developer with **3+ years of experience** building and maintaining production web applications with **React, Next.js, TypeScript**, and modern frontend tooling. Experienced in designing **scalable frontend architecture, state management, performance optimization, monitoring**, and **reusable component systems**. I enjoy working closely with **product and design teams** to turn complex problems into simple, reliable user experiences, and I'm particularly interested in **product-focused engineering** and **owning features end-to-end**.

WORK EXPERIENCES

PROPITO AI Front-end Engineer

12/2025 - Now | Dubai - UAE (Remote)

PROPITO AI is an advanced AI-powered platform designed to help users find the ideal home for their lifestyle and identify the best real estate investment opportunities.

- **Architected frontend performance overhauls** across both the public-facing application and internal admin suites, driving Lighthouse scores **from an average of ~76 to 97+ (peaking at 100 in SEO)**.
- **Owned the end-to-end development of the Admin and Agency experiences**, from implementation and architecture to maintenance, debugging, and ongoing improvements, supporting a platform used by **~2,000 customers**.
- **Architected a centralized design system** and tokenized component library, standardizing UI across 3 platforms and **reducing sprint UI delivery time by 25%**.
- **Established scalable frontend architecture and development practices** in collaboration with the CTO, improving maintainability across the application.
- **Introduced E2E testing**, improving development workflows and helping **reduce regression bugs**.
- **Introduced PostHog and Sentry monitoring** to improve visibility into user behavior, application errors, and production issues, enabling faster debugging and more informed product decisions.

ApplyScore Ltd. Front-end Developer

10/2023 - 12/2025 | London - UK (Remote)

ApplyScore is an EdTech startup aimed at international students. It uses a dedicated AI model to match students to the best-suited study programs abroad and apply for them.

- **Architected and delivered** the platform's first **mobile-responsive experience**, unlocking mobile traffic and driving a **50% increase in active users (3,000 to 4,500)**.
- **Owned key product experiences** including the referral system, university panel, consultant pages, and **internationalization (i18n)** for a platform serving **~4,500 users**.

- **Improved SEO scores by ~30%** by collaborating with the SEO team and optimizing frontend implementation and page structure.
- **Improved UX and product clarity** by working directly with **product and design teams** to refine user stories and **translate requirements into intuitive interfaces**.
- **Reduced frontend bundle overhead** through **code splitting, lazy loading, and removing unused dependencies**, improving application performance.

Maroon co Front-end Developer

05/2023 – 10/2023 | Khozestan – Iran (Remote)

Maroon is a company specializing in industrial monitoring.

- **Implemented reusable React components and hooks** using established TypeScript and **React design patterns**, improving consistency and maintainability across the application.
- **Optimized API data fetching with React Query caching**, reducing unnecessary network requests and improving application responsiveness.
- **Implemented responsive interfaces** and containerized the development environment with **Docker**, improving cross-device UX and development consistency.

PROJECTS

Real-Time Collaborative Canvas

Next.js, TypeScript, Liveblocks, WebSockets

Multi-client WebSocket synchronization, high-frequency DOM/canvas rendering performance.

Distributed Task & Workflow Management System

Next.js, TypeScript, Prisma

Full-stack issue management application with Google authentication and Markdown editing.

Rawg

React, TypeScript, Zustand, React Query

Game discovery application with search, filtering and responsive UI.

SKILL SET

Languages

TypeScript JavaScript (ES6+) Python HTML5 CSS3

Frameworks and Libraries

Next.js (App Router, SSR, SSG, Streaming & Hydration) React React Query
Zustand Redux Toolkit React Hook Form Zod React Router React Window

UI and Styling

Tailwind MUI Radix UI Chakra UI Shadcn UI Styled components Scss

Testing and Monitoring

Vitest Playwright (E2E) Storybook Lighthouse Sentry PostHog

Build and Tooling

Vite Webpack pnpm Docker Git GitHub Actions GitLab CI/CD

Architecture

REST APIs WebSockets PWA MicroFrontend Monorepo Design Patterns

EDUCATION

Bachelor's degree, Computer science Razi University, Kermanshah 2021 – 2026

Built a strong foundation in computer science principles with a focus on practical **problem-solving** and **software architecture**. Successfully applied these concepts to real-world coding challenges, securing **1st place** in the university's Data Structures and Algorithm Competition.
